# WIRE CONTAINERS & SOLUTIONS

Your Reliable Manufacturer & Solution Designer

ANPING XINGYOU WIREMESH MANUFACTURERS CO., LTD

---

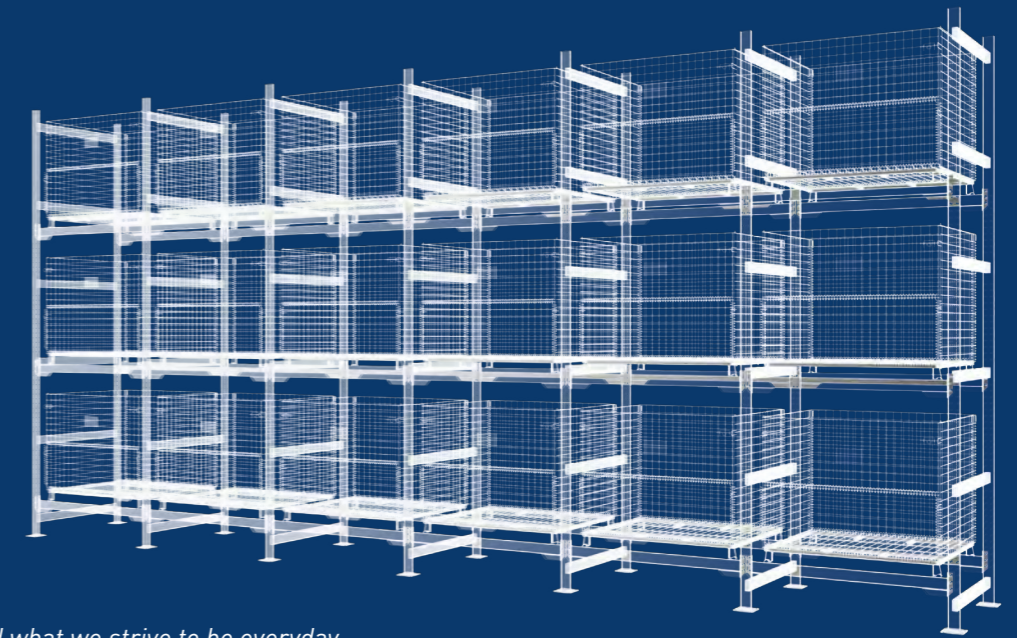

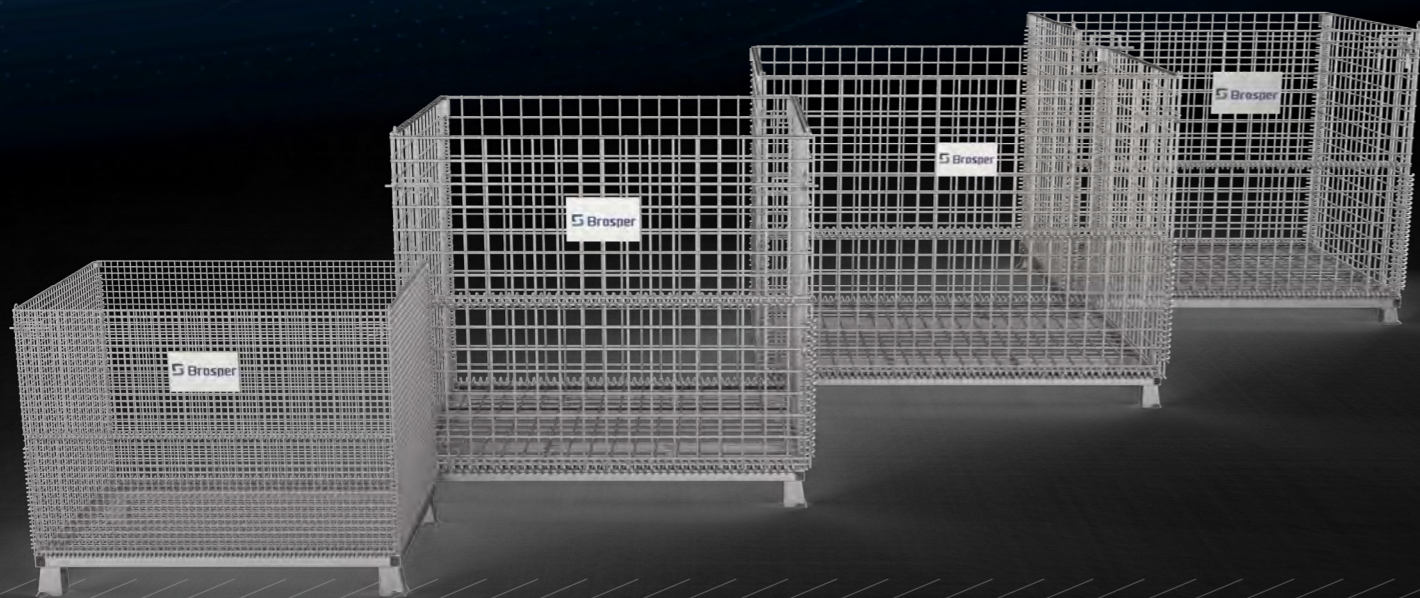

# DEVELOPING MANUFACTURER OF WIRE CONTAINERS

Anping Xingyou Wiremesh Manufacturers Co., Ltd is keeping developing since its foundation in 2011 for the design, manufacture and supply of standard and custom wire containers across the world. Now, we have more than 5000 square meter production area and 100 skilled workers to guarantee the business needs. Our wire containers are flexible and with ranges of designs and accessories to adapt to every applications and industries.

We continually invest in state-of-the-art design, production and testing techniques helping us to meet and exceed international quality standards across a number of industries such as logistics, warehouse, wine, agriculture, pet preforms, agriculture, industrial production, recycling and supermarkets. Meeting our clients' exacting wire container requirements is our ultimate goal and we always pride ourselves in.

## Vision

*Who we are and what we strive to be everyday*

Xingyou is dedicated in helping manufacturers, distributors, dealers, integrators and consultants optimize supply chains by providing them with flexible, stackable, collapsible and cost-effective wire containers and supply organized solutions.

## Mission

*The work we do to help fulfill our vision*

Customer's satisfaction is the basis of our daily work. We work together to understand customers' business and current problems to develop and design the most appreciate wire containers and solutions to maximize the operation efficiency in manufacturing, storage and distribution system.

## Values

*The guiding principle for everything we do*

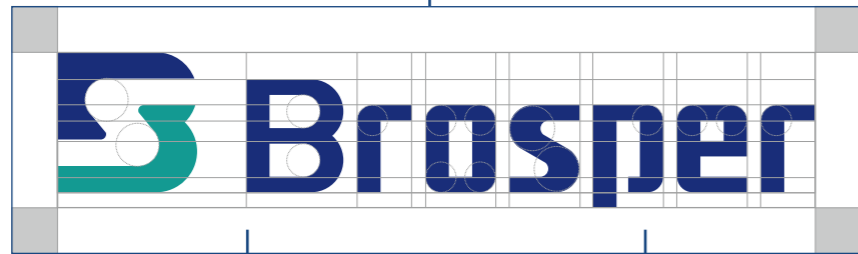

- **Customer.** Listen to Customer and serve better for them with qualified and considerate products.
- **People.** Ensure inclusion and diversity, which we believe is central to driving true innovation.
- **Quality.** Continuously develop and improve to grow up the enterprise and satisfy customer. Innovation. Customer tailored solutions leads the direction of our research and development.

# COMPANY BRANDS

XINGYOU is the short name of "Anping Xingyou Wiremesh Manufacturers Co., Ltd".  
The Chinese definition is to make our friends prosper.

We are willing to develop and get more and more prosperous together with our brothers (customers)

**"Brother"**  
represents our customers.  
We treat our honored customers as our brothers.

**"Prosper"**  
represent the wish "business prospers".

# INNOVATION & RESEARCH

Xingyou has over 10 years of experience in wire container design, manufacturing and export. State-of-the-art design software, fabrication equipment along with our seasoned engineering allow the company to develop products that are constantly exceed customers' expectation and get more and more long-term cooperation.

## DESIGN

Proper design in wire container system is key in providing a quality, trouble free and considerate products. Xingyou continuously design wire containers to contribute to organized storage, transport, handling and display.

## INNOVATE

Innovate is the way to continuously development. We fully understand customers' needs and innovate our technologies and equipment to satisfy customers' needs and contribute to wire container industry development and grow.

## TESTING

Strict quality control system is the base and strong support to guarantee the wire mesh container quality. Xingyou have professional equipment, strict process and professional workers to test every batch of orders.

# CAPACITY

Benefits from advanced equipment and skilled workers, Xingyou offers a wide range of wire containers with high-quality, fast delivery and high-volume. Our standardized production line including wire drawing, straightening, welding, sheet forming, welding, assembly and surface treatments. Know about Xingyou capacity and believe we are your reliable partner.

**8 Sets**  
Wire Straightening Machine

**6 Sets**  
Schlatter Mesh Welding Machine

**2 Sets**  
Cutting Machine

**3 Sets**  
Sheet-Forming Machine

**4 Sets**  
Fully Automatic Gantry Point  
Welding Machine

**4 Sets**  
Semi-automatic Gantry Point  
Welding Machine

**15 Sets**  
CO<sub>2</sub> Welding Machine

**15 Sets**  
Sand Grinder Machine

**1 Set**  
Powder Coating Line

## Wire Straightening & Cutting

The first step of wire container, which turns steel wire rolls into straightened steel wires.

## Mesh Welding

Precise dimensions, strong welding and highly efficient guarantees the quality and production schedule

## Sheet Forming

Form the sheets into grooves and supply accurate size and shapes to guarantee the high capacity in high demands.

## Point Welding

Welding the handles, latches and other parts onto wire container panels. Strong welding technology guarantee service life.

## CO<sub>2</sub> Welding

Skilled Workers welds the grooves or frames onto wire container panels. Guarantee the stability and durability.

## Mesh Panel Cutting

Advanced cutting machine enable the accurate cutting into required sizes and reduce burrs and mistakes which may affect the quality of wire container.

# QUALITY

Xingyou is committed to manufactures the qualified and high-performance wire containers in industry. We well understand how essential wire containers plays a role in your business, that's why we continuously developing and innovating our technologies and equipment for better.

## Manufacture

- Equipment.**  
 Benefit from our advanced equipment, we can control the tolerance within the standard and produce products exceed standard requirements.
- Worker.**  
 Besides, our skilled workers have average more than 8 years' experience to help to increase production efficiency and reduce production loss.
- Supervise.**  
 Additionally, the workers will check the dimensions and related data during production to supervise the machine operation and products quality. In this way we can find the problem in time and reduce defective percentage.

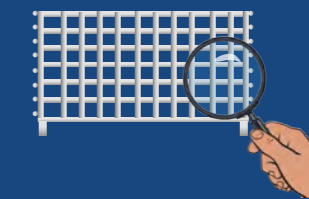

## Design

We adopt the most professional and the latest version of design software to match with the design trends and guarantee the accurate sizes at each component. And all drawings will be checked again to eliminate mistakes. It is the directive basis for communication with customers and order production.

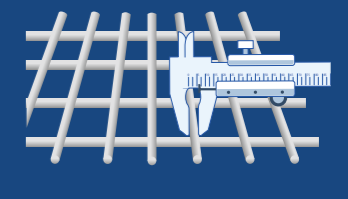

## Quality Control

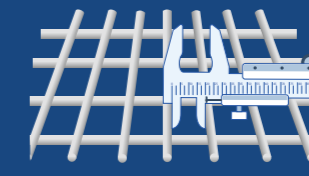

Each batch of wire mesh containers will be tested strictly based on QC system after production. Only qualified products can be packed, delivered and put in the warehouse. The test is standard and operated with professional quality control personnel.

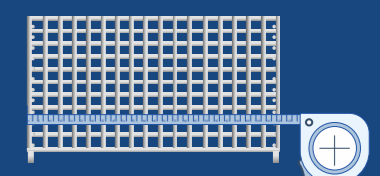

Appearance test

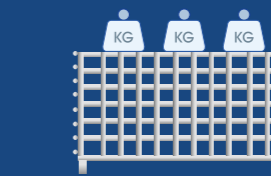

Wire diameter test

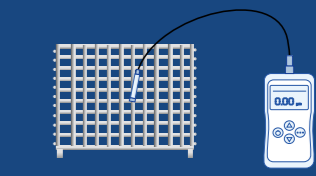

Mesh size test

Dimensions test

Load capacity test

Zinc coating thickness test

# BENEFITS

## More Capacity.

Stackable 3-4 high structure and movable structure, increases storage density, space utilization and handling efficiency for your warehouse. Additional, you can save the shelving costs.

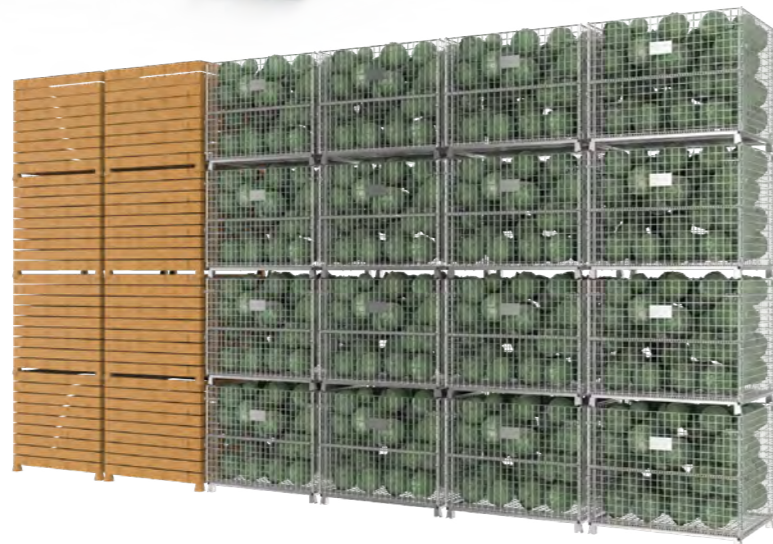

## More Free Space.

Collapsible structure can save more storage space for other functions area. And it can save delivery and return costs and allows more loading quantity.

## Easier Inventory Control.

Open mesh construction provides excellent visibility, easy inventory control and eliminates dust and dirt build up.

## More Secure.

Latches and padlocks are available to supply additional security for the valuable goods and reduce the risk of theft.

## More organized.

Pastable or laser marking logos enhance your corporate brand and considerate label holder make organize, storage and count easy.

## More Convenient.

Custom design supplies more configurations to adapt to your manufacturing, logistics, handling and storage system.

## Longer Service life.

Solid electro plating or customized powder coat finish holds up to elements like rust and offers protection from normal wear & tear and extend its service life.

## More Flexible.

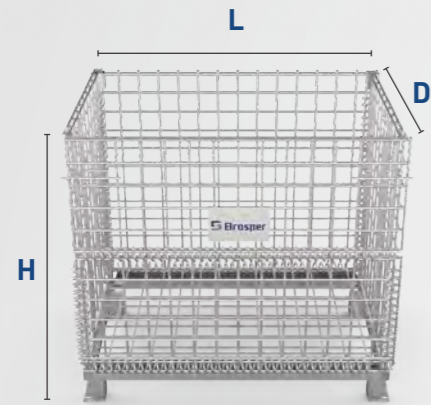

Casters, tractors and other designs and accessories for forklift make the wire container easily moved even when fully loaded.

## More Applications.

Standard and custom designs and accessories satisfy your different requirements on capacity and convenience in different industries and applications.

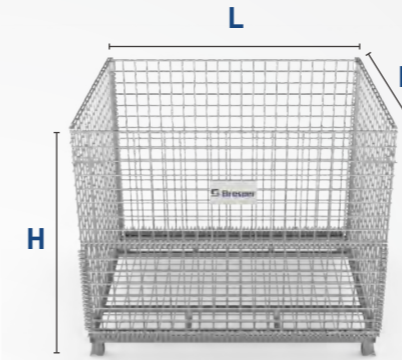

# SIZE OPTIONS

23.6" D x 31.5" L x 25.2" H

600 mm D x 800 mm L x 640 mm H

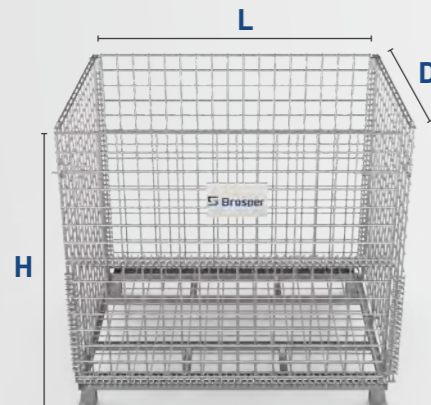

Wire Diameter (S.W.G.)	mm	4.8	5.6	5.8
	inch	6	4-1/2	4
Mesh Pattern	mm	50 x 50		
	inch	2" x 2"		
Load Capacity	kg	700	1000	1000
	lb.	1543.2	2204.6	2204.6
Max. Stacking Capacity	4 layers high			
High-Quality Finish	Electro galvanized			
Available Powder Coat

## Other Available Sizes

### Junior

External Dimensions: 20" D x 32" L x 22" H  
 Internal Dimensions: 19" D x 31" L x 16" H  
 Load Capacity: 1,100 lbs.  
 Mesh Pattern: 0.5" x 0.5"

### Medium

External Dimensions: 32" D x 40" L x 34" H  
 Internal Dimensions: 30" D x 38" L x 28" H  
 Load Capacity: 4,000 lbs.  
 Mesh Pattern: 2" x 2"

### Large

External Dimensions: 40" D x 48" L x 36" H  
 Internal Dimensions: 38" D x 46" L x 30" H  
 Load Capacity: 4,000 lbs.  
 Mesh Pattern: 2" x 2"

### Ultra-Large

External Dimensions: 40" D x 48" L x 42" H  
 Internal Dimensions: 38" D x 46" L x 36" H  
 Load Capacity: 4,000 lbs.  
 Mesh Pattern: 2" x 2"

# STRUCTURES

### Strengthening hinge.

Enhance the connection strength of neighbor panels and guarantee the stable structure.

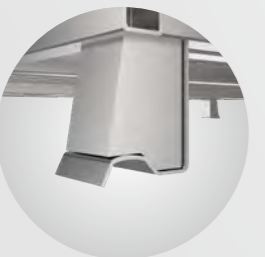

### Limit wire.

Guide the right position and guarantee the stability during stacking. Enable right and stable stacking.

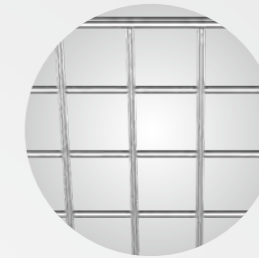

### Convenient latch & handle.

Easy open and close the door when stacking and fill in the materials.

### Stacking feet.

Full welded with U channel groove to guarantee easy stacking and stable support for the wire container.

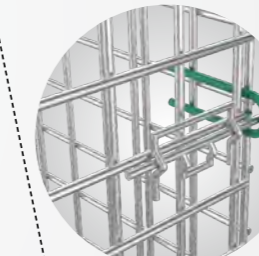

### Strong welded mesh.

Rigid and strong welding technology guarantee the durable structure and high load capacity.

### Connecting spiral wire.

Connect the neighbor panels and guarantee the flexible and easy install and uninstall.

### Reinforced wire.

Easy connection with front door and enhance the stability and strength of container.

### Firm U channel groove.

Welded with bottom panel to guarantee the maximum loading capacity and stability of wire container.

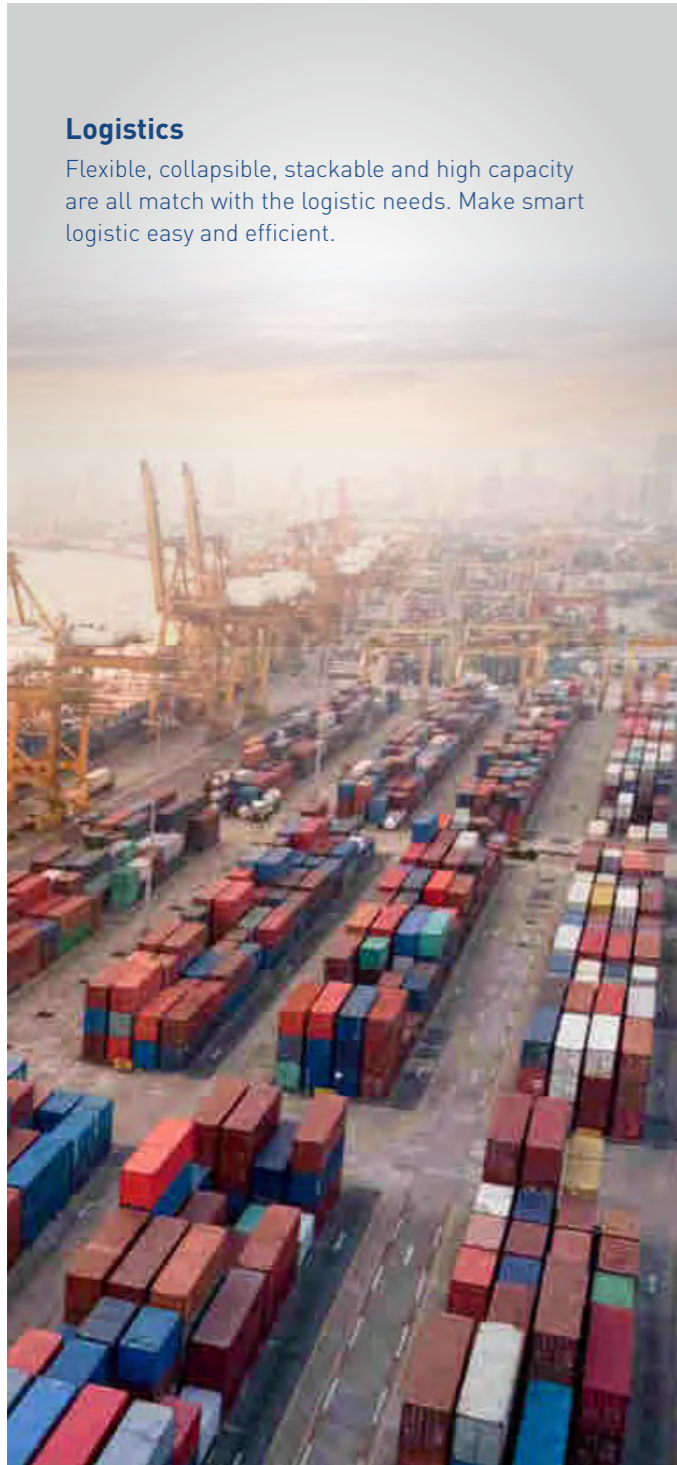

# APPLICATIONS & INDUSTRY

Wire containers are more and more popular in various industries. Flexible structures, collapsible and stackable structures help to achieve efficient transport, handling, storage and display. Additionally, they can help to build with smart and transparent system during production.

## Logistics

Flexible, collapsible, stackable and high capacity are all match with the logistic needs. Make smart logistic easy and efficient.

## Warehouse

Organized and visible containers make the stock, list and record clearly. It can contain more goods benefit from large capacity and stackable structure.

## Industrial Manufacturing

Loads your spare parts, semi-finished or finished hardware and parts in the wire container for organized and high load capacity.

## PET Preforms

Put the pet preforms bottles & plastic caps into the wire containers, you can get the efficient handling and moving during the storage and transport.

## Wine Industry

Store, transfer and handle wine bottles, bottle stoppers properly and make the management and storage easy and efficient.

## Recycled industry

Say goodbye to the disorder and organize the recycles into wire containers for easy classification, record, handling and transport.

## Agriculture

No matter the chemical fertilizer, vegetables or fruits can be stored in the wire containers before being delivered to the consumer.

## Retail & Supermarket

Wire container contribute to smart and traceable purchase sale and inventory system and make each link transparent and ordered.

# CUSTOM WIRE CONTAINERS

Except for standard wire containers, we can supply full ranges of tailored designs to match with customers' requirements and specific applications. Just browse our available designs and custom wire containers, and select them. If you can't find you needed configuration, just contact our specialists for additional assistance.

### Material

- Q 195 (standard)
- Q 235 (standard)
- Stainless steel (optional)

### Surface Treatment

- Electro galvanized (standard)
- Hot dipped galvanized (optional)
- Powder coating (optional)

## Customized Sizes (Can be customized size)

### D × L × H (Load Capacity)

● 20" × 32" × 22" (1,100 lbs.)

● 32" × 40" × 34" (4,000 lbs.)

● 40" × 48" × 36" (4,000 lbs.)

● 40" × 48" × 42" (4,000 lbs.)

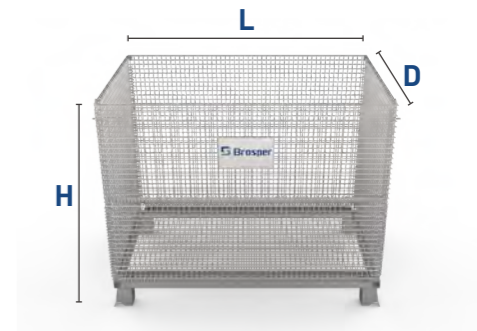

● 23.6" × 31.5" × 25.2"  
 ● 1543.2 lbs. ● 2204.6 lbs.

● 31.5" × 39.4" × 33.1"  
 ● 1102.3 lbs. ● 1322.8 lbs.  
 ● 1763.7 lbs. ● 2204.6 lbs.  
 ● 2645.5 lbs.

● 39.4" × 47.3" × 35.0"  
 ● 1102.3 lbs. ● 1763.7 lbs.  
 ● 2204.6 lbs. ● 3306.9 lbs.

● 39.4" × 47.2" × 39.4" (3306.9 lbs.)

● Other Sizes & Load Capacity

## Structure Design (Can be customized designs)

### 1 Name plate

Customized branding. Available for stickers or laser.

### 2 Half drop door

Easy access and take out.

### 3 Full drop door

Easy access and take out.

### 4 Hinged lid

Available for single or double lid and as well as removable design.

### 5 PP plates

Safe containing for small parts.

### 6 Steel plates

Safe containing for small parts.

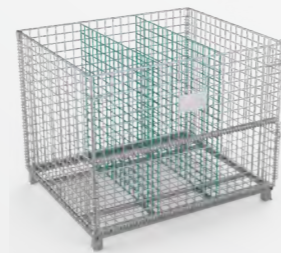

### 7 Horizontal dividers

For easy classification.

### 8 Vertical dividers

For easy classification.

### 9 Carters

Rigid/swivel options for easy and convenient moving.

### 11 Fork stirrups

Guarantee the stability and safety and prevent sliding during transport with forklift.

### 13 Reinforced feet

Safe conveying and transport for heavy loads.

### 15 Label holder

For easy classification, quick storage and search.

### 10 Forklift sleeves

Guarantee the stability and safety and prevent sliding during transport with forklift.

### 12 Runner bars

Easy storage on pallet racks.

### 14 Welded base

Enhance stability and load capacity for special requirements.

### 16 Tractor

Easy and efficient moving for heavy loads.

# CORPORATE SOCIAL RESPONSIBILITIES

At Xingyou, integrity is the basis for everything we do. Because we do what we say and say what we do, we have established trust and long-term cooperation and earned the respect of our employees, customers and communities.

Corporate Social Responsibility (CSR) delivers social, economic and environmental benefits for our stakeholders by translating our company values into action.

## Employees

We pride ourselves on maintaining a safe, healthy and productive work environment

- **Labor.**  
Xingyou follows local laws and regulations regarding labor and employment. We do not use child labor or employ anybody under the age of 18. We do not exceed prevailing local work hours and we appropriately compensate any overtime hours worked.
- **Workplace Health & Safety.**  
We identify and manage hazards and prevent illness and injuries in the workplace by establishing proper safeguards and by keeping our employees informed.
- **Emergency Preparedness & Resiliency.**  
We encourage a perpetual state of awareness and alertness to enable quick and mindful action in the case of an emergency to protect our people and operations from disruption and harm.

## Environment

We are actively reducing our environmental footprint through energy management and waste management.

- **Sustainable development.**  
Xingyou is committed to running our business in environmentally sustainable ways. All our production and products are compliant with environmental laws and regulations as a minimum standard. Beyond this, we commit to ongoing improvement on equipment and technology to support global sustainability objectives.
- **Energy management.**  
During our production, we continuously developing to reduce energy consumption through equipment improvement, technology improvement and increase production efficiency. Benefits from this, the output of wire containers is increased year by year.
- **Waste management.**  
We focus on reduce production loss during wire container manufacturing and fabrication, and wire container wastes are recycled and will not pollute environments.

## Business Ethics

A key element of Xingyou's success is our strong set of core values and business ethics.

- **To customers.**  
Xingyou is dedicated to enabling its customers to supply the most complete storage and transport solution through updating configurations, load capacities and structures. Customer satisfaction is Xingyou's most critical measure.
- **To Employee.**  
Xingyou is committed to fostering an environment that treat employees with respect, honesty and professionalism. We strive to provide a positive environment for growth and cooperation. Besides, we provide employees with a framework to guide their routine business decisions through complete ethical and legal obligations.
